

Upload a Cloud HVR/DVR/ NVR to the VMS

Quick Help

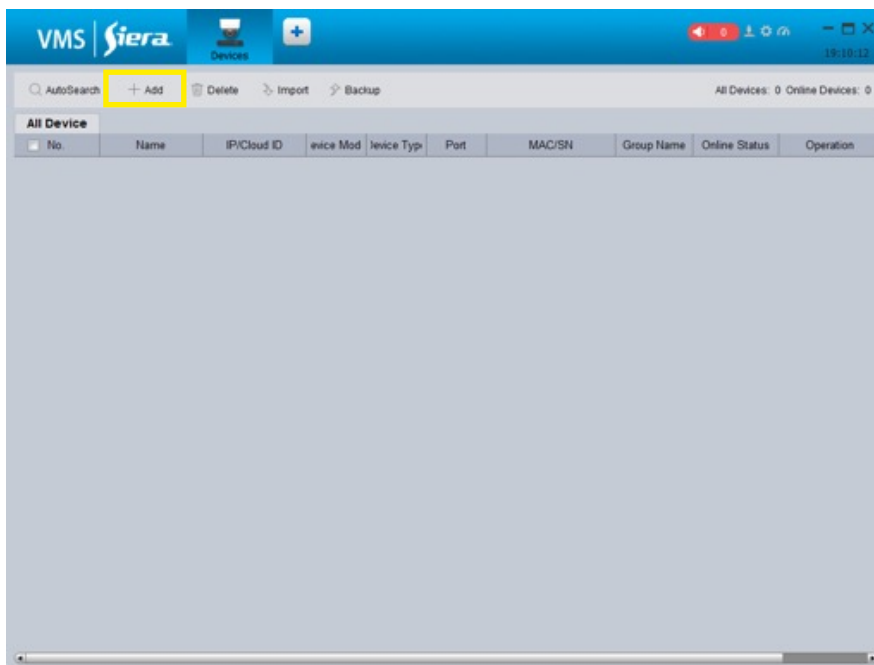

1. Access the VMS software.

2. Enter "Devices".

3. Select "Add".

4. Load the corresponding data.

The 'Manual Add' dialog box contains the following fields and controls:

- Device Name: [Text input field]
- Model: Smart_Panther 3.0 [Dropdown menu]
- Method to add: IP [Dropdown menu]
- Type: DVR [Dropdown menu]
- IP/Domain Name: [Text input field]
- Port: 3333 [Text input field]
- Group name: Grupo de equipos [Dropdown menu]
- User Name: admin [Text input field]
- Password: [Text input field]

At the bottom of the dialog are three buttons: 'Save and Continue', 'Add', and 'Cancel'.

Enter the reference name for the team.

If the team views it through the ISMS 5.0 app, use IDnube, if it views it through the ISMS 7.0 app, use IDnube 2.

Enter the Team ID.

Enter the user with which you will connect to the device.

Enter the password.

5. Select Add.

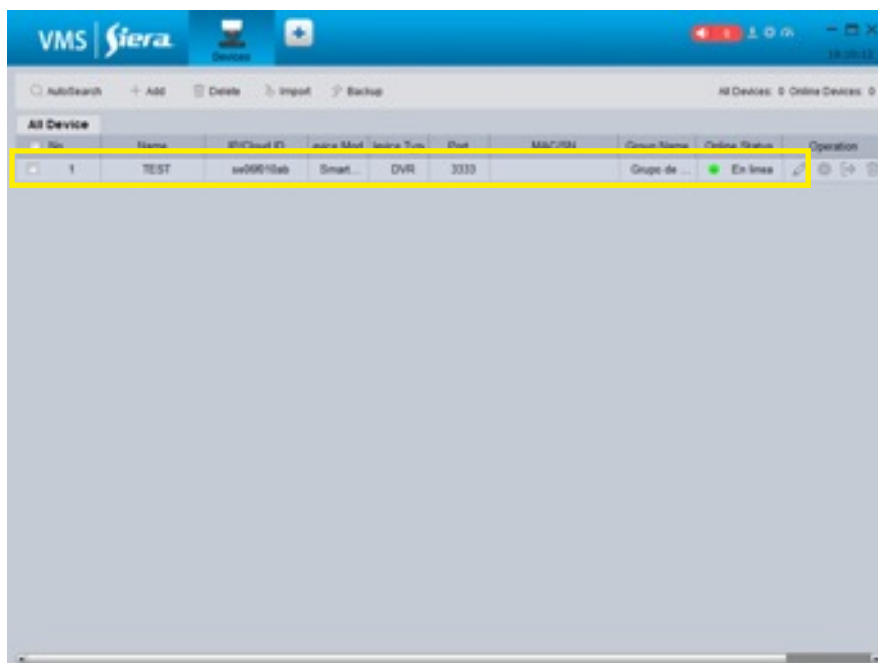

The 'Manual Add' dialog box contains the following fields:

- Device Name: TEST
- Model: Smart_Panther 3.0
- Method to add: iDcube
- Type: DVR
- IP/Domain Name: se03erlg3
- Port: (empty)
- Group name: Grupo de equipos
- User Name: admin
- Password: *****

Buttons at the bottom: Save and Continue, Add (highlighted), Cancel.

6. The equipment will appear loaded in the list.

The VMS Siera interface shows a table of devices. The table has the following columns: No., Name, IP/Cloud ID, Model, Type, Port, MUX/ON, Group Name, Online Status, and Operation. A single row is highlighted in yellow, representing the device added in the previous step.

No.	Name	IP/Cloud ID	Model	Type	Port	MUX/ON	Group Name	Online Status	Operation
1	TEST	se03erlg3	Smart...	DVR	3333		Grupo de ...	En línea
